Prices above do not include local taxes or import duty.
Delivery to your address will be charged at cost.

WB4 Indicator: Shows part weights, total vehicle weight, date, time and ticket number. Has RS232 communication to computer.

WB6 Indicator: Stores up to 10 tare weights, shows gross, tare and net weights, date, time and ticket number. Has accumulated net weight total memory. Has RS232 communication to computer. Comes with three radio ID fobs for use by drivers to save them alighting from the vehicle.

Truck Management Software: Full database of trucks, source and destination, commodity, other data as required; gross, tare and nett weights recorded. All weighbridge tickets stamped with time and date. Database with fully customised reports.

Agricultural Storage Software: Similar to the Truck Management Software plus Moisture input and correction of weight from tables for each crop. Gives weight in store after drying the grain.
